FILIP TONIĆ

SOFTWARE ENGINEER

SUMMARY

Passionate and detail-oriented Software Engineer with hands-on experience developing and implementing software solutions. I have a background in computer science, along with excellent problem-solving skills and a keen interest in cutting-edge technologies. My goal is to create robust and efficient software that meets the highest standards of quality.

EXPERIENCE

Senior Software Engineering Consultant The Idea Compiler

May 2025 - Present

- Worked as a core member of the team developing a healthcare transaction processing system based on **EDI files compliant** with the **005010 X217 standard**. Collaborated directly with the client and their engineering team, performed code reviews, and managed deployments across multiple environments.
- Subsequently joined the team working on the **X215 standard** implementation, focusing on accelerating feature readiness for testing. Improved and refactored code developed in parallel by other team members, resolved defects, and maintained direct communication with the client and their team to ensure alignment and timely delivery.

Software Engineering Consultant ONYX IQ

Nov 2023 - May 2025

- Developed new features and optimized existing codebase with a focus on performance enhancement, primarily by reducing server calls.
- Implemented a caching mechanism to improve efficiency and decrease server load.

Full Stack Developer Igd Solutions Corp, Belgrade

May 2021 - Oct 2023

- Developed new features and solutions, improving and adjusting existing codebase to new features.
- Integrated microservices.
- Did code reviews.

Full Stack Developer Outsource Insurance Professionals, Niš

Jul 2020 - Apr 2021

- Responsible for various company's projects, both for backend and frontend side of projects.

Backend Developer

Jun 2020 - Mar 2021

Ivs Freight, USA

- Worked on server side of the project.
- Responsible for maintaining server side code, implementing features and adjusting existing functionalities.
- Responsible for code reviews and working its way to production.

Full Stack Developer

Feb 2020 - May 2020

E-hoi GmbH, Frankfurt am Main

- Responsible for various company's projects, both for backend and frontend side of projects.

Full Stack Developer

Dec 2018 - Jun 2019

Data Security d.o.o, Niš

- Responsible for various company's projects, both for backend and frontend side of projects.

Web Developer

Nov 2016 - Jul 2019

VTŠ Apps Team, Niš

- Participated in the selection and training of new team members, teaching them the basics of PHP and Laravel.
